## Norfield Stables LLC Expands to Sleepy Hollow Stables to Better Serve NYC Riders

**Written by:** Emily Riden

**Client:** *Norfield Stables LLC*

**Release Date:** 2013-07-25

**Scarborough, NY – July 25, 2013** – Sleepy Hollow Stables was once the prestigious stomping grounds of the Rockefeller and Vanderbilt families. Now the exquisite riding facility will serve as the New York base for trainers Chris Cawley, Molly Ashe Cawley, Nick Decosta and Timmy Kees of Norfield Stables LLC.

Currently based in Newtown, CT, the Cawleys and Kees recognized that they have riders coming from New York City, and with the availability of Sleepy Hollow Stables, they saw the exciting opportunity to expand to be more accessible to riders coming from the city.

“Sleepy Hollow is approximately 32 miles from downtown Manhattan. It’s one of the closest facilities to New York City,” Chris

Cawley explained. “We’re excited about it.”

Beginning August 1, 2013, riders will be able to train with Norfield Stables LLC in both the current location in Newtown, CT and at the new Scarborough, NY location. Decosta will be primarily based in Scarborough, while Kees and the Cawleys will split time between both farms, with at least two trainers at each location every day. Having both facilities will enable Norfield Stables to not only better serve their current clients coming from the city, but it will also allow for new clientele to come on board.

“It’s a huge undertaking in theory because there are 42 stalls in that barn, but I’m excited about it,” Chris Cawley expressed. “It’s a beautiful property. There are acres of trail riding at the Rockefeller State Park Preserve; they just put in brand new footing for the two outdoor rings, and there’s one huge indoor ring. The barns are really cool; they’re similar to Gladstone in that it’s a double decker barn.”
